Re: Progress of the acquisition of a company in Switzerland

We, Delta Electronics (Thailand) Public Co Ltd (“the Company”), hereby would like to notify the progress of the acquisition of a company in Switzerland, which had been reported earlier on 8 November 2010, that on 14 December 2010, Delta Electronics (Thailand) Plc. completed the acquisition of 100% of the shares of Solon Inverters AG (SIA), based in Uznach, Switzerland,

Through this transaction, an experienced R&D team of the acquired company joins the ranks of the Company’s photovoltaic solar inverter business unit and this new company will be registered under the name of Delta Renewable Energy Systems (Switzerland) AG. Its current registered & paid up capital is CHF 500,000 (approximately Baht 15.4 million).

In the agreement with the seller, the transaction price is not disclosed. However, as the above acquisition is not a connected transaction (SIA was part of SOLON Group which had no relationship with Delta Group) and its size is less than 15% of total assets of the Company based on its consolidated balance sheet as of 30 September 2010, it is not required to comply with the SET’s rule and regulation re the acquisition and disposal of asset.

Please be informed accordingly.
