- Shareholder asked why the Company's net profit is higher than operational profit.

The net profit includes other income such as interest income, gains from foreign exchange, gains from the sale of investment, etc. The Company has received a significant amount of other incomes in 2011 which resulted in a higher net profit than its operating profit this year.

Answer: The Company explained that a calculation of the average interest rate cannot be calculated by using the range of 1.03% - 15.36% since the interest rates of its subsidiaries which are located in different countries varies substantially. It is high in some countries and low in some countries.

The Chairman informed the Meeting that the Company has a policy to pay a dividend of at least thirty percent (30%) of its net profits. However, the Company may adjust the dividend rate if financing is needed for a new investment plan and/or other possible future projects. Therefore, the Company will pay the dividend for the fiscal year ended December 31, 2011 made out of the profit at the rate of Baht 1.20 per share, which is the rate that conforms to the policy of the dividend distribution of the Company. The shareholders of the Company who are entitled to receive dividend payment must be shareholders who are in the list of shareholders as

of the Record Date on February 29, 2012. The shareholders' names shall be gathered in accordance with Section 225 of the Securities and Exchange Act B.E. 2535 (as amended) by closing the share register book and suspending of the share transfer on March 1, 2012. Remarks: A resolution on this agenda must be approved by the majority of votes of the shareholders present and cast the votes.

-Shareholder proposed the Company to consider increasing the dividend payment from the proposed Baht 1.20 to Baht 1.70 per share as the Company has a substantial amount of cash on hand and higher than that of last year.

Answer: The Company clarified that the dividend rate has been determined based on 2 major reasons. The first one is the current highly volatile world economic condition and if the Company is not in a good shape, it may face a difficulty in borrowing from financial institutions. The second reason is that the Company needs to continuously invest in research and development and in marketing. In addition, now is a good time for mergers or acquisitions because of the world economic condition is slowing down. The Company must therefore reserve its capital to explore appropriate mergers or acquisitions opportunities. However, the Company has a policy to continuously and consistently pay a reasonable rate of dividend to the shareholders.

Resolution: The Meeting considered and resolved to approve the dividend payment for the fiscal year ended December 31, 2011, as proposed, with the following votes:

With their expertise, knowledge, capacity and experience in the business of the Company, these directors had a good performance of their duties in the past with full qualifications as legally required for being a director of the Company. It is, therefore, proposed that these three directors, who will retire by rotation, be re-elected as the directors for another term (their profiles have been delivered to the shareholders of the Company together with the notice convening this meeting). In addition, the Company provided opportunities for the shareholders to propose name of qualified person to be elected but none of the name was proposed by any shareholder.

In this regard, Mr. Supat Limpaporn who is proposed to be re-elected for another term, will also be an independent director of the Company.
